Q2 ATM

10 marks

write a program to print the total amount available in the atm machine with the conditions applied total denominations are 2000, 500, 200,100, get the denomination priority from the user and the total number of notes from the user to display the total available balance to the user

Your Code

```
1 import java.util.Scanner;
2 class Main {
3     public static void main(String[] args) {
4         Scanner sc = new Scanner(System.in);
5         int denomination = sc.nextInt();
6         int notes = sc.nextInt();
7         int total = denomination * notes;
8         System.out.println("Total Balance = " + total);
9         sc.close();
10    }
11 }
```

Input

200
